Reference Volume XIII

Task Vision™ Professional Adjustable and Reversible Prism Glasses - page 23

• Unique frame design allows the user to adjust the prisms up/down or reverse the prisms.
• The lenses on these glasses are actually prisms that change the normal line of sight without distortion.

Custom 3x Business Card Magnifiers

• Choose your color, font and 4 lines of company information
• Thin, flexible, non-breakable plastic

Fabricated by

Task Vision™ “RELIEF TINT” Computer Clip-On Readers - page 39

When you work at a computer for any length of time, it's common to experience eye strain, blurred vision known as Computer Vision Syndrome (CVS).
• Enhanced, true color perception
• Reduces eyestrain and relaxes your eyes
ELECTRONIC MAGNIFIERS

Task Vision™ Digital One

- Portable Pocket 4” x 3” 6.5 oz
- Hand held or stand (legs fold in)
- 3.5” LCD Screen with brightness levels
- 3X to 15X Enlarge, Reduce or Freeze Image
- Full Color, positive/negative, bold positive/negative, blue/yellow, yellow/blue, blue/black
- Connects to any TV or Monitor 4-6 hours of work time

Includes: Lithium ion rechargeable battery, charger, adapter, AV cable and travel case.

Task Vision™ Digital Five

- Portable Pocket with stand 4.5” x 3” x .5” 3.5 oz
- 3.5” LCD screen with LED light and brightness levels
- 2x to 15x, Enlarge, reduce and freeze images
- Full color, black and white, high contrast, positive/ negative
- 4-7 hours of work time

Includes: Lithium ion rechargeable battery, charger, adapter and USB plugs.

Task Vision™ Digital Two

- Portable 6.25” x 3.25” 10 oz
- 4.3” LCD screen with brightness levels
- 3x to 18x up to 75x TV/Computer Monitor
- Full color, positive/negative, blue/white, black/yellow, blue/yellow, black/green
- Enlarge, reduce or freeze images
- Connects to any TV or Monitor 4-6 hours of work time

Includes: Lithium ion rechargeable battery, charger, adapter, AV cable and travel case

Task Vision™ Digital Seven

- Portable with folding handle and stand 5” x 3” 7 oz
- 3.5” LCD screen with brightness levels
- 2x to 16x - Enlarge, reduce or freeze images
- Full color, gray/black/white, white/black, blue/white, yellow/black, yellow/blue, blue/yellow
- Connect to TV or computer monitor; 6-8 hours of work time

Includes: Lithium ion rechargeable battery, charger, adapter, AV and USB cables and travel case

Task Vision™ Digital Mouse

- Connect to any TV or Monitor
- 20x zoom up to 70x digitally (WM1 & WM2)
- Full color, High contract positive and negative and freeze images

#WM1 - Wireless mouse w/receiver
#WM2 - Wired mouse
#WM3 - Wireless USB 2x to 32x

Optelec Compact Mini

- 2x - 11x
- 3.5” LCD Screen
- Color, Gray scale, and Freeze Image
- 4.7 oz

#MINI

Optelec Compact Plus

- 5x, 7x, and 8x
- 4.3” LCD Screen
- Color, Black/White, Blue/Yellow, Reverse and Freeze Image
- 10 oz.

#COMPWRLD
Task Vision™ LED Hand Magnifiers

- Newly designed aspheric lenses with deluxe anti-reflective blue coating for superior optics
- Newly designed “easy change” battery lid on pocket magnifiers
- Large raised switch is easier to use, especially for arthritic fingers
- Even illumination equal to, or surpassing existing magnifiers
- Full one year warranty
- Flicker free, bright LED
- Batteries will last 10x longer
- Uses 3 “AAA” batteries

LOUPES: TELESCOPES WATERPROOF / LED HEADLIGHTS

Task Vision™ Waterproof Lana Loupe

Platinum Frame
#PLW2.5X
#PLW3.5X

*Includes side shields
*Rx-able

Polycarbonate Glasses
#PLWSG2.5X
#PLWSG3.5X

*Anti-scratch coated

- All new loupes are dust-resistant and waterproof to ensure ease of cleaning/disinfecting, and years of trouble-free use.
- High resolution clarity for the ultimate vision experience.
- Great depth of field comfortably extends the natural accommodation capability of the human eye.
- Flip-Up function means if you do not need the loupe temporarily, just flip it up; no need to take it off.
- Adjustable nose bridge accommodates to any pupil distance and allow the user to set your intrapupillary.
- Fully adjustable viewing angle allows converge and declination angle for perfect optical alignment.

BINOCULARS: SPORT, TV GLASSES, PRISM SPECTACLES

**Task Vision™ TV Glasses**
- 2X Aspheric Lens
- Scratch resistant
- Binocular - Focus 10" to infinity with clarity
- Fits over prescription glasses
- Designed for watching TV, events, lectures, sporting, theater (even golf)
- Includes case and cloth

**Task Vision™ 2.0x Fixed Fit-Over Telescopes**
This unique design allows the user to wear these telescopes over their prescription glasses

**Task Vision™ 2.5x Sport Glasses/Binocular**
Near Monocular Focus 12" Binocularity to Infinity

**Task Vision™ 2.8x Sport Glasses/Binocular**
- "Near Caps (Monocular use only)
- #106-501 2 Diopter 9" - Infinity
- #106-502 5 Diopter 7" - Infinity

**Task Vision™ 3.5x Sport Glasses**
Focusable to 24" Binocular 16" Monocular

**Task Vision™ Professional Adjustable and Reversible Prism Glasses**
- Unique frame design allows the user to adjust the prisms up/down or reverse the prisms.
- The lenses on these glasses are actually prisms that change the normal line of sight without distortion.

Can be used for watching TV, reading and so much more because of the adjustable and reversible feature.

**Task Vision™ Fit Over Frame with Adjustable and Reversible Prisms**
- Fit over your prescription glasses or sunglasses or worn alone.
- Read or watch TV easily while laying down
- Perfect for bedridden patients
- Adjustable viewing angle - Flip up and stay in place
- Reversible prisms allows user to lie on their stomach or view straight ahead when they can not view normally.
- **Beneficial to patients** that are confined to the same position for long periods or suffer from Progressive Supranuclear Palsy, Osteoporosis, Arthritis, Spine or Neck injury and Stroke disabilities.
- **MRI** - Works with MRI to alleviate the effects of claustrophobia. Patients may be scanned Head First or Feet First with an identical view outside of the MRI magnet. Special non ferrous screws are supplied, which has no interference with the MRI.

**Task Vision™ Bed Prism Glasses**
- Lie flat in bed and watch TV or read.
- Prisms change your line of sight 90 degrees without distortion.
- Ideal for people who must lie flat on their back for long periods of time.
- Reduces neck and back strain.
- Worn like glasses.
- Can be worn over your prescription glasses.
- Can be used for MRI - non ferrous metal - The screws and hinges are made of brass, which has no interference with MRI.

Task Vision™ Prismatic Spectacles - Custom made by Tech Optics

Spherical Lenses CR-39 (Not Molded)
High Index 1.60 index with two-sided scratch resistant coating

HOW MAGNIFIERS WORK WITH ASPHERIC LENSES
HOW TASK-VISION™ PRISM SPECS USE SPHERICAL LENSES

Eyes converge, then view magnified image

Having a patient strap a magnifying glass to their head is a ridiculous notion. If they are wearing thin aspheric prismatic spectacles, that is exactly what they are doing.

Spherical lenses have fixed magnification, or power, throughout the lens. Wherever a patient looks through the lens, the power is the same. This allows them to scan reading material efficiently.

Aspheric lenses have variable magnification. Outside the optical center, the power must be distorted in order to reduce thickness. This is desirable for many applications, but not for prismatic spectacles. As the eyes scan, this variable magnification is especially disruptive, because one eye views through reduced magnification while the other views through increased magnification.

Aspheric prisms are typically made from molded acrylic polymer. Acrylic is not optical quality. For this reason, acrylic lenses are not used in prescriptive optics. Acrylic lenses are thermally unstable. If an acrylic prismatic is left on the dash of a car on a hot day, it will permanently change power.

Not all prismatic spectacles are created equal. Demand optical quality in your prismatic spectacles. Task-Vision™ prismatic spectacles use optical quality CR-39 spherical lenses - Not Molded!

Peli Press-On Prism

Revolutionary device for patients with Hemianopsia. The stick and clip-on are great for in-office screening. Peli press-on prisms are available in (4 pair bulk pack or 1 pair pack) as an alternative to permanent lenses or for patient to test before ordering permanent lenses. Economically affordable. Fitting instructions are available.

Hemianopic Readers

10Δ yoked prisms shift print away from the blind side into the seeing side for ease of reading. Available for both right or left Hemianopsia. For in-office demonstration.

Press-On Prisms

Fresnel Press-On Prisms

Ultra thin prisms are ideal for trial fittings, 1mm thick...simply shape and cut and stick on lens. Cohesive bonding firmly holds prism to lenses. Sold in pairs only.
### Functional Limitations in Patients with Benign Essential Blepharospasm

- FL 41 Clip: Blocks specific light wavelengths that have been found to cause headaches and fluorescent light induced migraines. FL 41 has also been identified as helpful for Blepharospasm, Severe Dry Eye Syndrome, and Photophobia. FL 41 Tint improves Blink Frequency, Light Sensitivity, and Functional Limitations in Patients with Benign Essential Blepharospasm.

COMPUTER CLIP-ON & TV PRODUCTS

Task Vision™ “RELIEF TINT” Computer Clip-On Readers

Can be attached to your prescription glasses. When you work at a computer for any length of time, it’s common to experience eye strain, blurred vision known as Computer Vision Syndrome (CVS). This is because the visual demands of computer work are unlike those associated with most other activities.

- UV Protection
- Clip-on / Flip-up onto your prescription eyeglasses
- Aspheric Lens – Distortion Free
- Anti Reflective coating
- Hard coated / Scratch Resistant
- 21 grams – Extremely light and comfortable

Principal benefits of “Relief Tint” Computer Clip-On Reading Glasses:
- Efficient protection for the eye
- Enhanced, true color perception
- Increased contrast and sharper detail
- Reduces eyestrain and relaxes your eyes
